

## RELIGIOUS BIAS IS DENIED BY TUMULTY

Declares Faith of John F. Sinnott Did Not Enter Into Appointment at Newark.

Charging the man he addressed with having "violated the proprieties that all gentlemen are bound to observe," Secretary to the President Joseph P. Tumulty sent today to Llewellyn E. Pratt, of Newark, N. J., a vigorous denial of the statement made by Pratt that Secretary Tumulty had brought about the appointment of John F. Sinnott as postmaster of Newark because the latter was a Catholic.

In an open letter to Secretary Tumulty, Mr. Pratt states that the Secretary in the course of a thirty-minute interview at the White House with a delegation opposing Mr. Sinnott, gave as his only reason for supporting the latter the fact that Mr. Sinnott and the Secretary were of the same religious faith. In his reply, Secretary Tumulty says:

"Dear Sir: Regardless of the fact that you have given publicity to a purely private conversation, and have thus violated the proprieties that all gentlemen are bound to observe, I have no objection to your, or to the members of your committee giving the fullest publicity to all of the matters discussed in any conference I have ever held with you. In order to prove your insinuation against me, that I have improperly used the office I hold, you have sought to give in the letter you addressed to me, but a part of a long discussion we had with reference to the candidacies of Messrs. Armitage and Sinnott for the Newark, New Jersey, postmastership.

"When discussing this matter, certain members of your committee sought to belittle the political standing of Mr. Sinnott. In reply to this, I made the statement that I had known Mr. Sinnott personally for years, that I was acquainted with his record for independence of character while a member of the Newark common council, that I had knowledge of the part he had played in defending Woodrow Wilson against the charge of religious bigotry, which was so freely and unfairly made against him by his political enemies throughout New Jersey, some of whom were members of the church to which he belongs."

"Mr. Sinnott's name among others was presented to the Postmaster General. A superficial examination of all the letters which arrived at the Post Office Department in favor of Mr. Sinnott's candidacy discloses the fact that men of all races and religions supported him in vigorous fashion. I have said to the President of the United States in favor of the candidacy of Mr. Sinnott, I, as a Jew, have no word of apology to make to any man."

"Although you have not requested it, I will place your letter before the President for his attention."

"Yours very truly,  
"JOSEPH P. TUMULTY,  
"Secretary to the President."

## Coming Food Show Enthuses Housewives

Announcement of Exhibit and Demonstration at the Arcade Opening Next Week Results in Planning of Number of Parties of Women.

Announcement in The Sunday Times that Sherwood P. Snyder, the renowned cooking school instructor, and the Westfield Domestic Science and Household Appliances Exposition, would be brought to Washington for a week's stay at the Arcade Auditorium, Fourteenth street and Park road, beginning next Monday, attracted widespread attention among Washington housewives.

The announcement was received with genuine enthusiasm in all sections of the city, and before The Sunday Times had been in Washington homes many hours, a large number of parties of women who will attend the lectures and pure food show were made up by means of telephone messages and personal calls.

The domestic science lectures and pure food exhibition and demonstration, to which The Times and the McClure publications invite the women of Washington as their guests, have proved of inestimable value to housewives in a number of large cities in the United States and many requests have been made for return engagements. In view of the fact that the exposition is for educational and instructive purposes, Sturges Dorrance, who planned and arranged it, wishes to exhibit it in as many cities as possible so as to spread the knowledge carried by the show.

### Will Show Food Preparation.

Sherwood P. Snyder is recognized as one of the foremost exponents of the culinary art in America. His lectures are designed to teach housewives how to quickly and scientifically prepare foods of all kinds, with the least possible effort and expense, and to make the vladis as wholesome and nutritious as the food values permit. Thousands of women throughout the United States have thanked him for his advice and expressed their indebtedness to him for his valuable instructions.

Lewis R. Allen is the father of the pure food show which will be conducted in conjunction with the cooking school. Mr. Allen is a leading authority on pure foods, his work at Westfield, Mass., having attained international fame for all of his views.

## LAW INSTITUTE CITES RIGHTS OF NATIONS

American Body Selects Five Principles as Basis for Universal Peace.

"The Declaration of the Rights of Nations," a document founded on the principles of the Declaration of Independence, laying down the principles of right and justice which should be followed by all nations to preserve peace, has been formulated by the American Institute of International Law.

Dr. James Brown Scott, president of the institute, made public the document yesterday. It was adopted at the first session of the institute, held in connection with the Pan-American Scientific Congress.

The institute is composed of 105 members, five representatives from the National Society of International Law, founded in each of the twenty-one republics. Elinor Root is honorary president; Secretary of State Lansing, Robert Bacon, former Secretary of State, and Dr. Leo S. Rowe, University of Pennsylvania, are other members of the institute. Dr. Alexander Alvarez is secretary-general.

### Five Principles of Rights.

The document defines the following five principles as embracing the rights of nations:

1. Every nation has the right to exist, and to protect and to conserve its existence, but this right neither implies the right to claim nor to exercise jurisdiction over other states, nor to interfere with or violate the rights of other states.

2. Every nation has the right to independence in the sense that it has a right to the pursuit of happiness and is free to develop itself without interference or control from other states, provided that in so doing it does not interfere with or violate the rights of other states.

3. Every nation is in law and before law the equal of every other state composing the society of nations, and all states have the right to claim and to exercise jurisdiction over their territory, and the declaration of independence of the United States, "to assume, among the powers of the earth, the separate and equal station to which the laws of nature and of nature's God entitled them."

4. Every nation has the right to territory within defined boundaries and to exercise exclusive jurisdiction over its territory, and all persons, whether native or foreign, found therein.

5. Every nation is entitled to a right by the law of nations is entitled to have that right respected and protected by all other nations, for right and duty are correlative, and the right of one is the duty of all to observe.
